DETAILED ACTION

Response to Arguments

Applicant's arguments, see Arguments, filed 3/2/10, with respect to claims 9-18 have been fully considered and are persuasive. The rejection of claims 9-18 has been withdrawn. See the reasons for allowance for an explanation of the withdrawing of the previous rejection.

Allowable Subject Matter

Claims 9-18 are allowed.

The following is an examiner's statement of reasons for allowance: The first application program has been determined to be an application residing in the headend that processes second applications that are associated with specific assets being stored in the staging server. The first application reads and parses information associated with the asset stored in the staging service and identifies the second program for handling the asset. These first and second applications are different from the first and second applications taught by Jerding (column 5, lines 2-10) in that the first and second applications in Jerding correspond to the second applications in the claimed invention. A search of the prior art has not for the first application as claimed and therefore the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
